

Distribution of Water Practice (Demo Version)

Read each question carefully.

1) Which statement about groundwater is true?

- A) Groundwater includes rivers and lakes.
 - B) Groundwater is the cleanest source of water.
 - C) Groundwater never reaches the oceans.
 - D) Groundwater contains different minerals.
-

2) Which statement about atmospheric water is true?

- A) Atmospheric water makes up about 10% of Earth's water.
 - B) Atmospheric water makes up less than 1% of Earth's water.
 - C) Atmospheric water makes up more than 97% of Earth's water.
 - D) Atmospheric water makes up about 30% of Earth's water.
-

3) Of what water source is an aquifer an example?

- A) atmospheric water
 - B) surface water
 - C) groundwater
 - D) water vapor
-

Distribution of Water Practice (Demo Version)

4) Which of the following is a source of atmospheric water in the environment?

- A) glaciers
 - B) ice caps
 - C) clouds
 - D) aquifers
-

5) Of what water source is a glacier an example?

- A) fresh water
 - B) groundwater
 - C) atmospheric water
 - D) water vapor
-

6) Of what water source is a river an example?

- A) groundwater
 - B) surface water
 - C) atmospheric water
 - D) purified water
-

Distribution of Water Practice (Demo Version)

7) About how much of Earth's surface fresh water is in swamps?

- A) 1%
 - B) 11%
 - C) 21%
 - D) 31%
-

8) Which of the following is a source of fresh water?

- A) Colorado River
 - B) Gulf of California
 - C) Pacific Ocean
 - D) Gulf of Mexico
-

9) About how much of Earth's surface fresh water is in rivers?

- A) 2%
 - B) 15%
 - C) 37%
 - D) 90%
-

Distribution of Water Practice (Demo Version)

10) Which statement is true?

- A) Most of Earth's water is salt water.
 - B) Salt water is found mostly in lakes and rivers.
 - C) Glaciers and ice caps trap most of Earth's salt water.
 - D) There is more salt water under ground than on the surface.
-

11) About how much of Earth's ocean water is salt water?

- A) 30%
 - B) 70%
 - C) 97%
 - D) 100%
-

12) Which statement is true?

- A) Very little of Earth's surface water is fresh water.
 - B) About half of Earth's surface water is fresh water.
 - C) Most but not all of Earth's surface water is fresh water.
 - D) All of Earth's surface water is fresh water.
-
